Jamf Parent

Parental Management of Children's Devices

Summary

At Springside Primary School, we've invested in Jamf as our Mobile Device Management Solution.

Jamf allows us to integrate teaching and learning in the classroom by:
- deploying apps & licenses associated with teaching and learning
- restricting access in order to manipulate settings to distract from learning
- monitoring and limiting activities during class time
- resetting passcodes if forgotten or placing into lost mode if misplaced.

Jamf Parent Guide for Parents

Jamf Parent is an app that allows you to manage your children's devices. Using Jamf Parent, you can restrict and allow apps and device functionality on your child's devices. Click here to watch a guide, which provides step-by-step instructions on how to use the features in Jamf Parent to manage your child's school-issued device.

Use Jamf Parent to:

- restrict/set up rules for games, apps and social media during specified times of the day.
- create custom access rules with the simple step-by-step wizard.
- turn off apps whenever the student is riding a bike or walking in traffic.
- receive a notification when the student arrives safely at school.

Click here for the App tutorial.	Download the **Jamf Parent** App for iPhone or Android.
